V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-33	YES
	Claims		NO
Inventive step (IS)	Claims		YES
	Claims	1-33	NO
Industrial applicability (IA)	Claims	1-33	YES
	Claims		NO

2. Citations and explanations

The inventions set forth in claims 1-33 are not disclosed in any of the documents cited in the international search report, and are novel. In particular, the fact that ornoprostil alleviates the adverse effects of diclofenac is not disclosed even in document 1, which is considered to be the most relevant of the prior art documents.

The inventions set forth in claims 1-33 do not involve an inventive step in the light of document 1, cited in the international search report. Document 1 discloses the fact that ornoprostil alleviates gastric disturbance induced by NSAIDs (non-steroid anti-inflammatory drugs). Document 1 does not mention that ornoprostil alleviates the adverse effects of diclofenac; however, given that diclofenac is recognized within this technical field to be a typical NSAID, document 1 can be considered to suggest that ornoprostil alleviates the adverse effects of diclofenac. Therefore, a person skilled in the art could easily conceive of adopting this constitution.
